

PEOPLE BIKING: RIDE RIGHT

No Wrong Way Riding

Never ride against traffic. It is very dangerous and illegal.

Avoid the "Left Hook"

Watch out for cars turning left across your path when riding straight through intersections

Cyclists must stop at all signals and stop signs

Ride Predictably

Ride in a straight line. Do not weave in and out of parked cars.

Generally, it is less safe for adults to bike on the sidewalk and it is illegal in many communities. Ride in the street and check your local ordinance.
